2022 Annual Report

SAVE THE BAY®

NARRAGANSETT BAY

Our mission is simple.

Protect and improve Narragansett Bay.

Save The Bay's accomplishments are made possible by the support of our members, donors, volunteers and community partners.

Our 2022 Annual Report highlights the milestones we were able to reach with your help during the past year.

Thank you for your support.

ON THE COVER: Save The Bay staffer Wenley Ferguson and intern dig runnels in Sapowet Marsh - Tiverton, RI

A message from our Board President and Executive Director

Dear Friends,

This is an exciting time of growth for Save The Bay. In keeping with the goals outlined in our 2027 Strategic Plan, we are adding new staff to our habitat program to accelerate the pace of climate adaptation and restoration projects. We are expanding our education team to provide new opportunities for marine science education programs in urban core and urban ring communities. We have commissioned the M/V Rosemary Quinn, a custom-built catamaran landing craft, to facilitate shoreline cleanups on Bay islands, support salt marsh habitat restoration projects, and provide new summer camp experiences.

Last but not least, we are constructing Save The Bay's Hamilton Family Aquarium at the Gateway Transportation Center in Newport. This 7,000-square-foot facility in the heart of Newport will offer a one-of-a-kind experience for adults and children; a unique and sustainably managed collection of animals native to the Narragansett Bay region; hands-on, interactive exhibits; interaction with expert educators; an invitation to get involved with the cause of protecting the Bay; and a relaxed, fun, family-friendly setting. We expect to open the doors of the Aquarium to the public in Fall 2023.

While we are excited about these initiatives, one aspect of our work remains unchanged: our steadfast commitment to protecting the Bay from pollution and other environmental threats. Our 2022 advocacy efforts—with grassroots support from voters like you—continued to achieve major success. With your help, we recorded major victories in the Rhode Island legislature, including securing additional resources for the R.I. Department of Environmental Management and the R.I. Coastal Resources Management Council; winning dedicated funding for habitat conservation and adaptation projects; and the passage of a bill designed to reduce plastics pollution.

None of this work would be possible without your support and the generosity of thousands of members, volunteers, and donors just like you. You make this progress possible. Thank you for supporting the cause and ensuring a clean, healthy and thriving Narragansett Bay for people and wildlife alike.

With appreciation,

A handwritten signature in black ink, appearing to read 'Jonathan Stone'.

Jonathan Stone
Executive Director

Gib Conover
Board President

SAVE THE BAY®

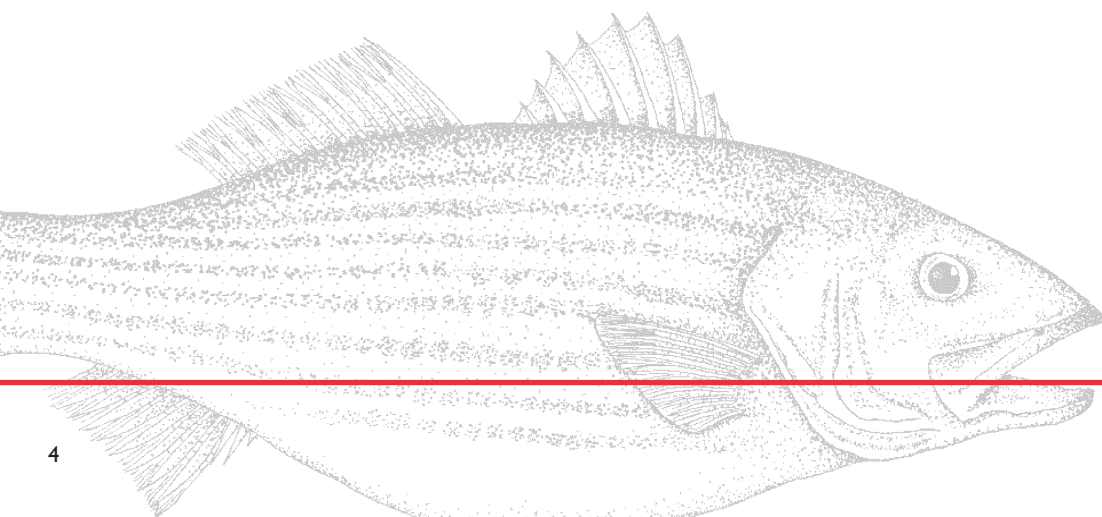

NARRAGANSETT BAY

With your help...

Habitats are restored.

In 2022...

- **We completed our 15th year of collecting and analyzing water quality samples** along seven sites in the Pawcatuck River estuary and Little Narragansett Bay. The data supports our advocacy for improvements to the Westerly Wastewater Treatment Facility and the Town of Westerly sewer system, the funding and implementation of improved stormwater and wastewater management systems, and more.
- Along the Palmer River in Warren, we began restoring a salt marsh and marsh migration corridor that was protected through a Natural Resources Conservation Service easement. This is **the first restoration project that Save The Bay has conducted on land that we helped protect**, in partnership with the Warren Land Conservation Trust and NRCS.
- We participated in a nationwide **exploration of PFAS in freshwater** by taking a snapshot of conditions in the Pawtuxet River in Cranston and Buckeye Brook in Warwick, R.I. The data collection represents an important first step in understanding the prevalence of these contaminants in local waters.
- We continued **restoring salt marsh sites** in Little Narragansett Bay and Winnapaug, Quonochontaug, Ninigret, and Potters ponds by securing funding; recruiting and training volunteers; sharing techniques, results, and knowledge with partners; and monitoring sites for success.
- We advocated for and supported **improved stormwater management techniques** in Warren, Providence, South Kingstown, and Westerly, R.I., as well as in Fall River, Mass.

2,541

826

programs offered to students and
adults

32,980

total program participants

Future Bay stewards are engaged.

In 2022...

- After two years of COVID-19-related limitations, our 2022 summer BayCamp season resumed in full-force. We welcomed **643 BayCampers** in grades K-12 to 27 camps in Providence, Newport, Wickford and Bristol, R.I.
- During the school year, our education **staff engaged nearly 10,000 students** in 187 hands-on, experiential education programs at schools across Rhode Island—and half of those students engaged in a Save The Bay program more than once.
- Save The Bay Seal Tours and Lighthouse Tours **welcomed nearly 2,855 Bay stewards** of all ages to on-the-water learning and recreation experiences.
- Our ever-popular Exploration Center and Aquarium at Easton's Beach in Newport, R.I. offered **19,496 guests** the opportunity to explore and learn about the animals, habitats and issues related to Narragansett Bay.

SAVE THE BAY®

NARRAGANSETT BAY

With your help...

Our community continues to grow.

In 2022...

- Thirty-eight ambitious **volunteers logged more than 200 hours marking storm drains** in Bristol, East Greenwich, Johnston, Middletown, North Providence, Providence, Warren and Warwick, R.I., as well as in Seekonk, Mass., where they marked all known storm drains in the town. This effort seeks to prevent pollution in local waters by raising awareness and educating community members.
- After a fog-related cancellation in 2021, **this year's Swim engaged 204 swimmers and 145 volunteers** in our two-mile, open water swim and fundraiser, with an additional 48 participants contributing virtually. Participants raised \$240,000 in support of Save The Bay's mission to protect and improve Narragansett Bay.
- Save The Bay's popular internship program **welcomed 68 interns** into semester-long programs that allowed them to engage directly with our mission-based work. Individual programs spanning every area of the organization, from volunteer management to habitat restoration.
- Our International Coastal Cleanup effort was supported by **2,465 volunteers who collected 22,655 pounds of trash** from shorelines around Narragansett Bay between the months of September and November. This data supports a global report on litter and marine debris that is published by the Ocean Conservancy and made available to advocates worldwide.

\$50 million

green bond funds approved by R.I. voters

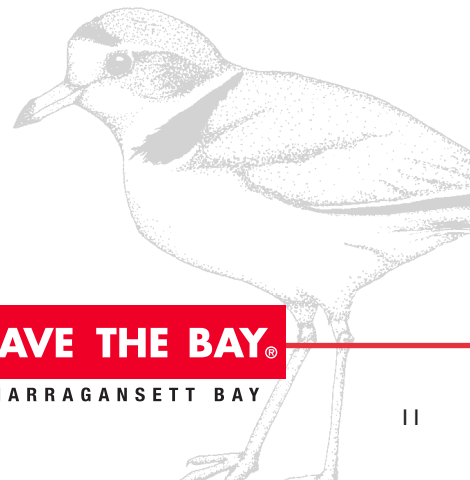

1,179

messages sent to R.I. legislators through our
VoterVoice platform

Our voices are heard.

In 2022...

- Upholding our commitment to public access, **our team surveyed 135 public rights-of-way**, while also supporting the designation of five additional rights-of-way in Portsmouth, R.I.
- Our VoterVoice platform—which allows residents across the region to make their voices heard by writing directly to their elected representatives on matters important to Narragansett Bay—**engaged 259 more advocates** than in 2021.
- Save The Bay celebrated one of the most successful Rhode Island legislative sessions in decades. We made strides in each of our legislative priorities, including: funding for the Ocean State Climate and Resilience program; increasing resources at the Department of Environmental Management; the addition of a full-time hearing officer for the Coastal Resources Management Council, a key part of our reform agenda for the agency; the appointment of a qualified member for the CRMC's volunteer council; and a ballot measure that **led to the approval of a \$50 million “green bond” to support environmentally-friendly initiatives and projects in the state.**

SAVE THE BAY®

NARRAGANSETT BAY

Financial Report

From our Treasurer

Dear Friends of Save The Bay,

I am pleased to report that the 2022 fiscal year showed a return to normal operating results as evidenced by robust revenue growth and the continued strengthening of our balance sheet. As always, these results were made possible thanks to the ongoing support of our donors, grantors, volunteers and an exceptional staff who, as the pandemic waned, hit the ground running thus generating substantial revenue gains. As seen in the numbers on the next page, the organization quickly regained its stride and returned to business as usual. The balance sheet is rock solid. Total assets are up 29 percent as significant increases in all categories more than offset a decline in the investment portfolio which suffered through a turbulent market.

On the revenue side, the key income generators increased substantially and were led—as always—by contributions, gifts and grants totaling more than the previous two years combined. This reflects the continued confidence our donors and grantors have in the team’s ability to produce top notch results.

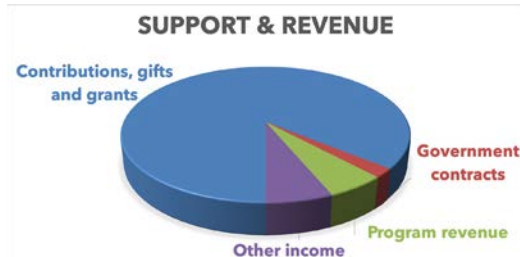

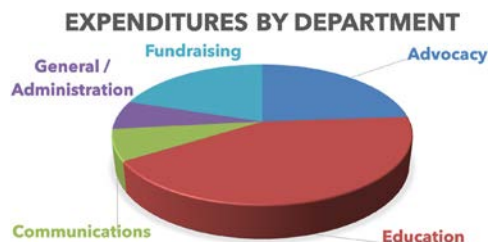

Though only representing six percent of revenue, we were delighted with the results produced by our education team as they got back to interacting with students face-to-face after a year of predominantly virtual programs and activities. To paraphrase our educators, the looks on the faces of students first discovering Narragansett Bay are priceless.

Expenses were again well managed with most increases volume driven in concert with the revenue generators noted above. General and administrative expenses dropped year-over-year and represented just seven percent of total expenses.

As I say every year, none of this progress would be possible without an exceptional staff and the continued support of our generous donors and grantors. Thank you for maintaining your support of our mission. We are truly grateful.

Joseph “Bud” Cummings

Planned Giving

Endowment Funds

Endowment funds are long-term investments in the future of Narragansett Bay. They support critical strategic initiatives, reduce dependency on annual giving and help us keep pace with rising costs. Our Board identified growing our endowment as an important priority to lead Save The Bay into its second half century. Our endowment funds are as follows:

Board-Designated Endowment for Operating Support

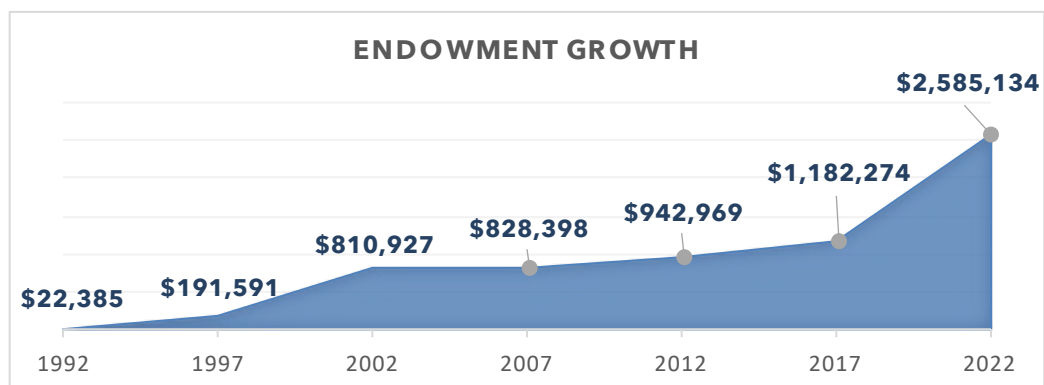

Designated by the Save The Bay Board of Directors, this endowment provides general operating support and the greatest flexibility in managing organizational resources in response to changing circumstances.

Donor-Designated Endowment for Operating Support

Gifts to this endowment provide annual operating support to our advocacy, restoration and education efforts.

Donor-Designated Endowments

The **Alison Walsh Fund** supports a yearly community award for outstanding environmental advocacy. The **Roosa Family Fund for Marine Education** supports marine environmental education for schoolchildren. The **John H. Chafee Memorial Fund** honors the Senator's lifelong commitment to the environment and supports Save The Bay's education programs. It can be used to designate endowment contributions below the threshold for individual endowments. The **Julia Sands Chase Fund** honors the memory of Mrs. Chase and supports Save The Bay's critical mission.

Seagrass Society

Remembering Save The Bay in your will is one of the most meaningful gifts you can make. Within Narragansett Bay, seagrass beds are a primary source of food and shelter for an abundance of marine life. Just as seagrass beds are the foundation of a healthy Bay, the Seagrass Society ensures a long-term, healthy financial foundation for Save The Bay. We are grateful to our members who have included Save The Bay in their estate plans, ensuring the health of the Bay for generations to come.

SAVE THE BAY®

NARRAGANSETT BAY

Aquarium Donors

Hamilton Family Aquarium

In September 2021, Save The Bay made headlines with the news that we had entered into agreements with the City of Newport and the Rhode Island Public Transit Authority to move our Exploration Center and Aquarium—currently located at Easton’s Beach—to the first floor of the Gateway Transportation and Visitors Center on America’s Cup Avenue.

The relocation and renovation project completes a nearly decade-long search for a new home for our beloved Aquarium. The new location is less vulnerable to coastal storms and flooding, provides greater accessibility to pedestrians and public transit users, and allows for expanded exhibit and program space to more effectively connect guests of all ages to our mission of protecting and improving Narragansett Bay. With more capacity for school programming, expanded internship programs, and community events, we’ll be inspiring the Bay stewards of tomorrow in greater numbers than ever before.

With generous support from the donors listed on the next page—including our key-stone donors, the Hamilton Family Charitable Trust—our vision is well on its way to becoming a reality. With just a few months to go, we have raised \$5.9 million of our \$7 million goal. These efforts will result in an experiential destination that will benefit the Newport and greater Bay communities for years to come.

Thank you to all who have helped make this dream a reality! We look forward to celebrating this amazing step forward with you when Save The Bay’s Hamilton Family Aquarium opens in Fall 2023.

If you are interested in contributing to the effort, please contact Maureen Fogarty, director of operations, at mfogarty@savebay.org.

Thank you to our project partners

DBVW Architects - Infrastructure and facility design services

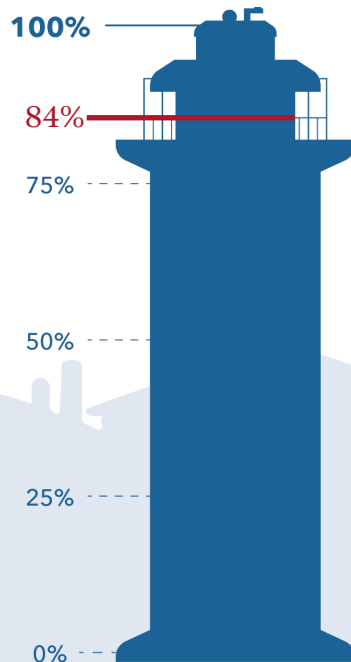

Roto - Exhibit design and fabrication

Tenji - Life support systems design and installation

Lightswitch - Specialty lighting design

Donor Support

To our donors:

Save The Bay is deeply grateful to the thousands of individuals, businesses, foundations and other organizations that generously support our work to protect and improve Narragansett Bay. In this report, we are pleased to recognize all those who gave \$250 or more during calendar year 2022.

If you have been omitted or incorrectly listed, please accept our sincerest apologies and notify Jackie Carlson at 401-272-3540 x106.

Thank you.

“This place is fantastic! We went with the grandkids and great grandkids last weekend. The staff were great and so friendly, patient and knowledgeable. It’s small but captivating. We were there for 2+ hours and kids didn’t want to leave. Highly recommend.”

“[We had an] excellent field trip experience with my students. Extremely well organized with interesting activities. They give clear explanation and allow for both sitting and learning, then up and participating in fun investigations about the Bay and its watershed.”

- James L.

Narragansett Bay wasn't always like this...
